

ERP-PSM Feature Specification

Complete Inventory of System Modules, Business Rules, Validations & User Workflows

SYSTEM	TOTAL MODULES	CORE SPECIALIZATION	COMPLIANCE
ERP-PSM Suite	8 Comprehensive Suites	Tenders & Landed Costs	VAT, NBR & Double-Entry

System Feature Index

8 MODULES

MODULE CODE	MODULE NAME	CORE FUNCTIONAL CAPABILITIES	USER ROLES
MOD-01	RBAC & Security	User login, dynamic menu builder, role permissions matrix (View/Add/Edit/Delete).	SUPER ADMIN
MOD-02	Master Setup	Company profile, bank accounts, customer/vendor directories, item catalog & VAT.	ADMIN / DATA
MOD-03	Customer Tenders	Tender RFQ enquiries, cost estimation quotes, customer PO, delivery challan, invoices.	SALES / PROJECTS
MOD-04	Procurement & Costs	Supplier RFQs, quotes, POs, Goods Receipt (GRN), local & customs landed cost bills.	PROCUREMENT
MOD-05	Accounts & Treasury	Cash/Bank inward & outward, contra fund transfers, petty cash, credit/debit notes.	ACCOUNTANTS
MOD-06	Payments & Payouts	Customer invoice payment receipts, supplier disbursements, multi-invoice allocation.	CASHIERS / FINANCE
MOD-07	Audit & Statements	Chart of accounts, journal vouchers, trial balance, and profit & loss (P&L) statements.	AUDITORS / MGMT
MOD-08	Reports & Intelligence	Project profitability matrix, customer/vendor SOA, NBR/VAT compliance tax filing.	DIRECTORS / TAX

MOD-01: Authentication & Dynamic RBAC

SECURITY LAYER

1.1 User Authentication & Password Change

[/login](#), [/change-password](#)

Enforces encrypted session credentials (zazu_logged_in). Automatic logout upon inactivity, brute-force protection, and secure password updates with current credential verification.

1.2 Dynamic Navigation Menu Manager

[/menu-management](#), [/menu-management/reorder](#)

Construct and reorder menu trees dynamically. Allows admins to configure parent groups, child menu routes, and FontAwesome icons without modifying code files.

1.3 Role-Based Permission Matrix

[/role-management](#), [/role-permission](#)

Assign granular permissions per menu per role: **View** (read-only), **Add** (create transaction), **Edit** (modify records), and **Delete** (soft-delete).

MOD-02: Master Data Management

CONFIGURATION ENGINE

2.1 Company Profiles & Multi-Bank Accounts

[/company-list](#), [/company-bank-list](#)

Maintains corporate identity, CR and VAT numbers, invoice headers, and multi-currency bank accounts with IBAN, Swift, and automated general ledger links.

2.2 Customer & Vendor Directories

[/customer-list](#), [/vendor-list](#)

Customer & supplier records with CR/VAT numbers, GPS delivery coordinates, multiple contact persons, and opening ledger balance initializations.

2.3 Items, Categories, Brands & Units (UOM)

[/items-list](#), [/category-list](#), [/uom-list](#)

Central catalog with item descriptions, HSN codes, default VAT rates, and specification sheet file attachments.

MOD-03: Customer Tender & Sales Execution

CUSTOMER SIDE

3.1 Tender Enquiry Registration (RFQ)

[/add-tender-enquiry](#), [/tender-enquiry-list](#)

Log customer requests, deadline dates, technical specifications PDF upload, and item line registrations. Automatically generates an Enquiry ID.

3.2 Tender Quotation & Pricing Engine

[/tender-quotation-add](#), [/tender-quotation-print/\(:num\)](#)

Auto-fetches enquiry items. Supports multi-currency conversion, unit costs, profit markups, and VAT calculation:

$$\begin{aligned}\text{Line Net Rate} &= \text{Unit Cost} \times (1 + \text{Margin \%}) \\ \text{Gross Total} &= \text{Total Subtotal} + \text{Total VAT} + \text{Freight} / \text{Handling}\end{aligned}$$

Includes one-click branded quotation PDF export.

3.3 Customer PO Award Tracking

[/customer-tender-po-add](#)

Record client contract awards, input customer PO reference numbers, upload signed PO copies, and confirm ordered line quantities.

3.4 Delivery Challan (DC) Dispatch Note

[/tender-dc-add](#), [/tender-dc-print/\(:num\)](#)

Issue dispatch notes with vehicle numbers, driver contact, dispatch quantities, and legal gate-pass verification sheets.

3.5 Commercial Tax Invoice Generation

[/tender-invoice-add](#), [/tender-po-invoice-print/\(:num\)](#)

Auto-generate commercial tax invoices linked to PO and DC shipments with automated VAT breakdowns and payment bank selection.

MOD-04: Supplier Procurement & Landed Costing

PROCUREMENT SIDE

4.1 Supplier RFQ & Quotation Comparison

[/vendor-rate-enquiry](#), [/vendor-quotation-add](#)

Issue RFQs directly tied to customer tender requirements. Log supplier price bids and compare multi-currency rates side-by-side.

4.2 Supplier Purchase Orders (PO) & GRN Inward

[/vendor-po-add](#), [/vendor-pur-inward-add](#)

Issue formal POs with delivery terms. Goods Receipt Notes (GRN) verify physically received materials at the warehouse against PO line items.

4.3 Complete Multi-Element Landed Cost Framework

[/vendor-purchase-bill-add](#), [/customs-bill-list](#)

Aggregates 4 distinct cost streams directly into the tender ledger:

$$\text{Total Project Cost} = \text{Vendor Bills} + \text{Local Consumables} + \text{Freight} / \text{Shipping} + \text{Customs Duty}$$

MOD-05: Accounts, Treasury & General Ledger

FINANCIALS

5.1 Cash & Bank Inward / Outward Books

[/inward-list](#), [/outward-list](#), [/print-voucher/\(:num\)](#)

Record non-sales income receipts and operational expenditure disbursements (rent, utilities, salaries) with auto-generated receipt and payment vouchers.

5.2 Contra Entries & Petty Cash Float

[/contra-entry](#), [/petty-cash](#)

Internal fund movements (Cash to Bank, Bank to Bank) without equity impact. Petty cash float management with minor expense vouchers and running balance tracking.

5.3 Credit & Debit Notes

[/credit-debit-note-list](#), [/credit-debit-note-add](#)

Issue Credit Notes to clients for goods returns or invoice revisions; issue Debit Notes to suppliers for rejected materials or price disputes.

MOD-06: Payment Processing & Settlements

SETTLEMENTS

6.1 Customer Invoice Receipts

[/customer-invoice-receipt](#)

Real-time outstanding balance calculation. Multi-invoice allocation of incoming cheques, wires, or cash payments with official receipt voucher printouts.

6.2 Vendor Payments & Advance Settlements

[/vendor-payment-list](#), [/vendor-adv-payment](#)

Disburse advance deposits against Supplier POs or settle outstanding supplier purchase bills with debit reconciliation.

MOD-07: Audit & Financial Statements

AUDIT & ACCOUNTING

7.1 Journal Vouchers & Double-Entry Ledger

[/vouchers-list](#), [/voucher-entries-list](#)

Manual journal vouchers for adjustments and provisions with strict `Total Debit == Total Credit` validation checks.

7.2 Trial Balance & Profit & Loss (P&L)

[/trial-balance-list](#), [/profit-loss-report](#)

Consolidated Trial Balance across Assets, Liabilities, Incomes, and Expenses. Automatic P&L report computing gross margin and net operating profit.

MOD-08: Business Intelligence & Tax Reports

REPORTING SUITE

8.1 Tender Enquiry Summary & Profitability Matrix

[/tender-enquiry-summary-report](#)

Project Profitability Engine: Real-time comparison of Total Invoiced Sales vs. Complete Landed Costs (Supplier POs + Local Bills + Freight + Customs) showing net gross profit and margin %.

8.2 Customer & Vendor Statements of Account (SOA)

[/customer-statement-report](#), [/vendor-statement-report](#)

Complete chronological ledger statements with opening balances, debits, credits, and closing dues. Supports PDF printing and Excel (.xls) exports.

8.3 NBR & VAT Compliance Reporting

[/sales-nbr-report](#), [/purchase-nbr-report](#)

Sales VAT output register and Purchase input tax credit (ITC) schedule aligned with NBR and GCC VAT filing standards.
